Hainan NicePal Industry Co., Ltd., established in the 1990s, has over 30 years of experience in developing green, healthy, and nutritious products. Committed to independent R&D and technological innovation, we have grown into a modern enterprise integrating agriculture, industry, technology, and trade, and are recognized as a National High-Tech Enterprise.

For over 30 years, “NicePal Industry” has leveraged Hainan’s unique natural advantages and abundant tropical fruit resources. Through independent R&D, production, and sales, we have built a comprehensive system for deep-processing tropical fruits. Our products are known for their advanced technology, mature processes, and exceptional quality, earning widespread market satisfaction. Today, NicePal operates a well-established production, R&D, and marketing network, making us a trusted leader in the tropical fruit processing industry.

Our operations are certified under ISO9001 Quality Management, ISO22000 Food Safety Management, and BRC Global Standards, ensuring product safety, quality, and refined market services. With over 30 national patents for technological inventions and practical applications, and recognition as a National High-Tech Enterprise, NicePal has become a leader in the tropical fruit deep-processing industry. We are certified organic by both the EU and USDA, meeting higher client demands. With full traceability from source to product, we deliver trusted quality.

After more than 30 years of development, NICEPAL now operates a factory spanning 200 mu (approximately 66,667 square meters), with a total floor area of 62,000 square meters. This includes 3,800 square meters of clean rooms, 2,600 square meters of frozen storage at -38°C to -42°C, and 5,500 square meters of cold storage at -18°C.

Our production capabilities include:

- 8 fruit and vegetable powder lines, with an annual output of 36,000 tons;
- 8 quick-frozen coconut milk and fruit/vegetable pulp lines, with an annual output of 50,000 tons;
- 6 frozen concentrated pulp lines, with an annual output of 33,000 tons;
- 2 ambient-temperature fruit and vegetable pulp lines, with an annual output of 13,000 tons;
- 1 desiccated coconut line, with an annual output of 2,500 tons.

With modern facilities and advanced equipment, NICEPAL has built a solid foundation for sustained growth and innovation.

The “NicePal” brand offers a diverse range of independently developed products, divided into six categories:

1. Fruit and vegetable powders: coconut, mango, papaya, pineapple, banana, pumpkin, and more.
2. Applied Fruit and Vegetable Powder: baked fruit powder for bread, cakes, and other uses.
3. Quick-Frozen Fruit and Vegetable Pulp: coconut, mango, and blended pulp.
4. Frozen Concentrated Pulp/Juice: orange juice, coconut water, and others.
5. Room Temperature Pulp: coconut, mango, papaya, banana, pumpkin, and more.
6. Desiccated Coconut.

With hundreds of products across these categories, NicePal meets the needs of various markets. Quality begins at the source: the company manages over 10,000 mu of fruit planting bases, ensuring standardized planting practices for high-quality, safe, and traceable raw materials. This guarantees a reliable supply to meet large-scale market demands.

Over the decades, NicePal has remained committed to excellence in production: vibrant colors, rich flavors, and exceptional quality, ensuring every product delights and satisfies. Designed to meet customer needs for convenience and quality, these products have gained popularity in both domestic and international markets. They are widely used in food and beverage, baking, catering, cold drinks, health products, and more.

In the domestic market, NicePal has established long-term partnerships with thousands of stable clients. Internationally, the products are exported to the United States, Chile, Japan, Southeast Asia, and other regions. With its strong reputation, NicePal has become a leading and well-known brand in the industry.
